WARNER'S SAFE BITTERS

This remedy is the result of much scientific study and many careful experiments, and stands first among medicinal preparations of its kind. It is pleasant to the taste, and has staying qualities which render it powerful both to cure and to prevent disease, and also to build up a wasted and enfeebled body.

It is the best Blood Purifier, and stimulates every function to more healthful action, and is thus a benefit in all diseases.

In eliminating the impurities of the blood, the natural and necessary result is the cure of Scrofulous and other Skin Eruptions and Diseases, including Cancers, Ulcers and other Sores.

Dyspepsia, Weakness of the Stomach, Constipation, Dizziness, General Debility, etc., are cured by the Safe Bitters, and it is unequaled as an appetizer.

It is scientifically compounded from vegetable extracts of highly medicinal properties.

It corrects the evils of improper drinks, unwholesome food and over-eating, and is the best temperance substitute for alcoholic drinks.

The testimony of those who have used Warner's Safe Bitters is uniform in its praise.

It is a medicine which should be in every family, and which, wherever used, will save the payment of many doctors' bills.

Bottles of two sizes; prices, 50 cents and $1.00.

Warner's Safe Kidney and Liver Cure, Safe Diabetes Cure, Safe Tonic, Safe Pills and Safe Nervine are also superior remedies, unequalled in their respective fields of disease.
Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country.
Send for Pamphlet and Testimonials.

TO THE SHAREHOLDERS OF THE
QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—
During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.
At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.
A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.
Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1 250 67.
Good and substantial buildings have been erected over all the works.
The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.
The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.
The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

From the foregoing it will be seen that there are debts or liabilities owing by the company.
The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.
Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc., the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time. JAS. REID, President.
R. J. SKINNER, Secty.
Quesnelle, B.C., 3rd May, 1880.
I hereby certify that I have examined the accounts of the Quesnelle Quartz Mining Company, Limited, and that the foregoing is a true and fair abstract thereof. M. M. HAGARTY,

THE SEVENTY THOUSAND LOAN.

The Mayor's exposition of the objects sought to be attained by the proposed loan of $70,000 is clear and forcible. It explains many points that required explanation and places the matter in a more favorable light before the ratepayers. His Worship shows that additional taxation will not be necessary. The idea had gained currency that the proposition to set aside one-fourth of one per cent. of the sum now accruing from the realestate tax meant an increased taxation to the amount of one-fourth per cent. His Worship disposes of that idea in a few terse sentences and has greatly relieved the public mind. He shows that when the "last loan was raised a similar provision was made for interest and sinking fund, but realestate owners are quite aware that they have paid no additional taxation on that account." His Worship next proceeds to state how the new loan has become, in his opinion and in the opinion of a majority of the Council, a necessity. He shows that there has been advanced from the city revenue proper on water works account a sum that approaches $15,000; he contrasts the present condition of the water and works with their condition in 1875, and claims that the supply is rendered purer by means of filterage which has been secured during the past two years, and that good strong walls have taken the place of weak ones. He then points out that an improvement in the character of the water has created an increased demand for it, so that from an annual revenue from the water works of $9,000 there has been an increment in three years to $20,000—over one hundred per cent. To perfect the scheme, extend the area now supplied and further enlarge the revenue, and to reduce the danger from a destructive conflagration to the *minimum*, the Council propose to construct a reservoir at some commanding locality near the city. The loan of $70,000 has become a necessity. It is proposed, with the money to be raised by means of this loan (supposing it to be sanctioned by the real estate owners) to repay the sum of $15,000 advanced from the civic revenue proper to the water works account, thus making that large sum available for street improvement, and to devote the remainder of the amount to perfecting the scheme of supplying the city with good and wholesome water. As to the desirability of securing a constant supply of "cheap water and plenty of it," there are not two opinions; neither will there be an objection raised to the expenditure of $15,000 on streets. People are agreed as to the excellence of the object sought; but all may not approve of the means by which it is proposed to gain them. Every argument that has yet been advanced against the passage of the loan has been based upon the assumption that the bylaw provides for an increase of one-fourth of one per cent. in taxation. The Mayor's letter sweeps away that objection—which he shows to be baseless—and puts the case very fairly before the public.

THE DRYDOCK AND THE LOCAL GOVERNMENT.

In the highpressure article which the government organ published a few days ago upon the successful termination of the drydock negotiations we observed that reference was not made to the safeguards which the Dominion Government have thrown around the bargan. Last year this government—it will be remembered—drew on the Dominion Government for a large sum of money on account of cofferdam expenditure. The draft was returned to Victoria dishonored—the Ottawa Government giving the Victoria magnates to understand that they would advance no monies to reimburse the province for expenditure on cofferdam, machinery and rotten cement account. The subsidy of $250,000 was to be applied to drydock construction and not to the wiping off of old scores. Moreover, the Ottawa Government have decided that the provincial Government shall not finger the cash, and the drafts of the contractors will be payable at Ottawa on the production of certificates from the engineer. There will be no more seizure of cheques issued by one minister on another minister, and not one dollar of the subsidy can be expended to pay off the liability of $200,000 incurred through the crazy speculations of the Premier in 1875. We deem this explanation necessary as we find that the information is not supplied by the organ whose article of last week (in which Mr. DeCosmos was made to shine in a pale, reflected light behind the Premier) has caused considerable comment.

THE CUSTOMS REVENUE.

The returns from the custom houses in the east begin to show a satisfactory increase in the revenue. At some points the receipts as compared with the corresponding month of last year have more than doubled. The returns so far noted supply the following information for May:—

	1879.	1880.
Halifax	$ 51,034	$ 92,104
St. John	40,224	81,993
Montreal	275,327	526,877

The increase at these three points was as follows for the month of May:—

	Increase.
Halifax	$ 39,070
St. John	41,769
Montreal	251,550
Total	$331,389

The Ottawa *Citizen* says:—"Of course as the comparison is made against a month in last year, in which in consequence of previous heavy importations there was less than usual business done, it does not quite correctly interpret the actual condition of trade. But it goes to show that when the Finance Minister estimated $700,000 as the amount received last year for customs duties which properly belonged to this year, he was probably correct. At the ratio of increase above given, the total figures must necessarily show a large increase of business done this year and a large revenue independent of that $700,000, and we feel certain that the Minister's calculations of revenue for the current year will be borne out with gratifying exactness.

The $70,000 Loan.

To the Editor of The Colonist:

Sir,—To afford every facility for an intelligent vote being given upon this proposed loan it is important there should be full ventilation of opinion with regard to it.

I notice some of the correspondence in your contemporary, as well as indeed editorial matter, seems as if written with an *animus*, and in a spirit of acrimonious opposition, rather than with a view to arrive at correct conclusions.

It would almost seem by your silence as if those *ex parte* views were regarded as sufficient guidance for voters, and consequently there was no necessity for your giving utterance upon the subject. Be that as it may, the citizens are looking to your paper for that fuller information which will place the matter in the clearest possible manner before them free from unworthy prejudice.

It would be well that there should be information as to the manner in which the proposed $70,000 is to be spent; whether the whole amount is for water works; or whether some portion of it is to be devoted to paying indebtedness of water works for money that has been advanced from ordinary city revenue, and which, if thus handed over, would enable the Municipal Council to carry out contemplated street improvements, leaving the remainder for water extension. This, and other information, such, for instance, as to the amount of water works indebtedness liquidated by sinking fund in operation, etc., would, I take it, at the present time be acceptable to the citizens.

Real Estate.

Great Britain.

Sir Lawrence Palk is now Baron Haldon of Haldon, in the county of Devon.

Sir Ivor Guest has taken the title of Baron Wimborne, of Ashford, County Galway.

Sheriff Macdonald, of Edinburgh, has resigned his position at the head of the second battalion of the Queen's Brigade (volunteers). All parties, Whig and Tory, agree in regretting Mr. Macdonald's retirement, as the second battalion was second to none in dicipline and drill.

The Coventry police have adopted bicycles. This will enable the Inspectors of police to get to the different beats at night without the delay necessarily occasioned by their proceeding thither on foot, while it will also expedite the serving of summons in the outskirts of the city.

The Gladstone Government will not introduce a Redistribution of Seats Bill until the results of the census of 1881 are ascertained. It follows, of course, that a new Reform Bill could not be laid before Parliament until the year 1882. It is understood that a Burials Bill will be the most prominent measure of the short session about to commence.

Sir George Jessel, Master of the Rolls, is the only judge who is eligible for a seat in the House of Commons, and under the Act of Parliament no future Master of the Rolls will be eligible. Should Mr. Lowe, therefore, become Viscount Sherbrooke, Sir George, a distinguished alumnus of London University, and a Hebrew, will undoubtedly represent his Alma Mater.

Dr. William Chambers, of Edinburgh, offered to restore the nave of St. Giles' Cathedral at his own expense if the public would buy out the congregation which meets there. Within a year from the date of his offer an Act of Parliament was got to get over sundry technical difficulties and the citizens were invited to raise the £10,500 required. Only £4000 has been got together and the period fixed by Dr. Chambers has lapsed. Whether he will extend or not remains to be seen.

Mr. Herbert Gladstone in one of his late Leeds speeches, said that in regard to the disestablishment of the English Church, which must in a certain time come before the country, although he was a member of the Church, if the country declared itself decidedly against the establishment he should go with the country (cheers), for to resist it would be worse than useless. Parliament, however, had not been dissolved upon the question, and the opinion of the country was not known upon it, so that if it came up at present he should vote for the maintenance of the establishment. He then acknowledged the great service that Nonconformists had rendered to Liberalism, and hoped soon, indeed, to have a hand in the removal of one of their greatest grievances—that in regard to the burial question. (Cheers.)

Contradiction.—My attention has been drawn to a notice in *The Colonist* to the effect that S. H. Glover conducted the business of the Commission Store, Johnson street, for 3½ years. S. H. Glover is under a mistake when he makes that assertion. When S. H. Glover came into my employ at the Commission Store, 3½ years ago, he knew no more about the clothing business than an apprentice boy. He had all to learn; therefore he was subject to my orders, and when he departed from that rule he was conducted out of the store on short notice.

[Per steamer Geo. E. Starr.]

A friend of mine, a serious man, went the other day to one of the new ladies' clubs that have come into existence, with his wife, a serious lady. They were inclined to become members, but before doing so the husband consulted a waiter. He looked the lady over and said: "Between you and me, sir, she is hardly our style—our members are mostly l'actresses and military."—*London Truth.*

In the opinion of London *Truth* the first meeting of the new parliament was wonderfully like a big school assembling after a holiday, with the old boys patronizing the new ones.

WHITE HOUSE

COUNTRY ORDER DEPARTMENT.

"MONEY SAVED IS MONEY EARNED."

PEOPLE AT A DISTANCE ARE FINDING OUT that we sell the best goods at the Lowest Price.

By every mail and from all parts of the Province we are in receipt of letters requesting samples and price list of goods. To meet the increasing demand we have established a Country Order Department which will be goverened by the following rules:—

1ST—ON APPLICATION, WE WILL FORWARD TO ANY ADDRESS SAMPLES FREE BY MAIL.

2ND—OUR BUSINESS IS DONE STRICTLY FOR CASH, THEREFORE ALL ORDERS MUST BE ACCOMPANIED BY THE CASH TO THE FULL AMOUNT OF BILL, INCLUDING FORWARDING CHARGES.

3RD—MONEY CAN BE SENT BY REGISTERED LETTER, POSTOFFICE ORDER OR IN POSTAGE STAMPS TO THE EXTENT OF FIVE DOLLARS.

Parcels weighing 5 lbs, or under can be sent by Post to any part of the Province for 2 bits per lb., or small packages for 1½ cents per oz.

In ordering, where it is impossible to select from sample, describe as nearly as possible the goods and price. We will then send you as good, and generally a better article than you can buy in this city for the same money.

To our friends, customers and strangers to our House, from Rocky Point to Cariboo, we offer goods as cheap as if they personally purchased them at our counter.

We invite all to the WHITE HOUSE. You will always find a welcome, whether you come to buy or look. Address all Orders to

THE WHITE HOUSE.

ANOTHER ACCIDENT AT NANAIMO

The Victim's Life Despaired of.

[Special Dispatch to The Colonist.]

NANAIMO, June 15.—Last night about 7 o'clock a miner named Davies, employed at the Vancouver Co.'s mine, on coming up from the pit went into his cabin and, deciding to refill his powder can, went into the shed where the powder was kept and commenced filling the can. Unhappily he was smoking at the time and it is supposed that a spark fell from his pipe into the powder keg, causing it to explode instantly, thus blowing the roof off the shed and burning the upper part of the unfortunate man's body dreadfully. His life is almost despaired of.

The ship Don Nicolas leaves to-night with a cargo of Wellington coal.

Who may Vote.

How is it that the organ always blunders when it undertakes to quote the law. Who are its legal advisers? The qualification of voters for or against the municipal loan is the possession of realestate with all municipal taxes thereon fully paid up. The organ's statement of yesterday was incorrect and calculated to mislead.

"ST. JAMES GAZETTE."—After many delays the first number of the *St. James Gazette* appeared in London on the afternoon of May 31. It is the same size and price as the *Pall Mall Gazette*. It contains a supplement of four pages, which is devoted to an introduction entitled "The Blowing of the Trumpet," and a political retrospect. There are nine pages of advertisements and the type and general appearance are cleaner than the *Pall Mall Gazette*.

NAVAL.—At about 10 o'clock yesterday morning the flagship Triumph steamed from Esquimalt harbor into the Straits for torpedo practice, several guests being on board to witness the highly interesting and instructive proceedings. In the evening a large number of citizens proceeded to Beacon Hill, Royal Roads, Church Hill and other favorable localities to see the electric light, which was exhibited from the ship at about 10 o'clock.

ST. NICHOLAS HALL.—This spacious building has been leased for a term of three years by Messrs. Fellows & Prior, iron merchants and hardware dealers. The hall, which will make a handsome and very commodious store, will be fitted up and stocked with everything necessary to meet the increased demand resulting from railway construction and a general improvement in this particular branch of trade.

THE *Weekly Notes* says the sentiment of the United States in regard to the fisheries dispute "is summed up in two propositions—1. Repeal the fisheries clauses of the Treaty of Washington, and restore the duty on Canadian fish. 2. To pay our fishermen handsomely for their present and *prospective* losses, and enter the amount on the national ledger to the debit of JOHN BULL, Esq."

SURGEON-IN-CHIEF TO THE RAILWAY.—Dr. Ernest C. B. Hanington, of this city, has been appointed Surgeon-in-Chief of the railway parties now operating from Yale towards Savona. Dr. Hanington during his residence here has won high distinction as a medical man; and it may be truly said of him that Victoria's loss will be Yale's gain. The doctor will leave in the course of ten days for his new field.

THE RAILWAY.—The steamer Princess Louise left here at a quarter to 7 o'clock yesterday morning for New Westminster, having on board a quantity of freight and 180 Chinamen and 40 white laborers who arrived on Monday night from California to work on the Yale-Savona railway.

SIR JOHN MACDONALD.—An Ottawa dispatch to the Hamilton *Times* on the 29th ult., says: "Sir John Macdonald will leave for British Columbia about the middle of July, after spending a few weeks at Orchard Beach."

MR. T. H. ALLEN, late of the public works department, Ottawa, arrived by the Idaho to assume an important position on Mr. Onderdonk's staff.

Up-Country Items.

[Inland Sentinel.

Yale is certainly a lively place at present. The hotels and boarding houses are doing a large business, while all kinds of trade is moving lively. Of course there are many persons in town who do not appear to be very busy, some waiting for situations expected to turn up, others seeking business openings, while not a few are sight-seers. Of late a number of ladies belonging to officials and others arrived, which makes the place look more like civilization.

The railway company now occupy the fine new office, corner of Front and River streets; the new Post-office building is about ready. Mr. Bailey's hotel is advancing to completion. Mr. C Derormier's new saloon building, east of Branch, is now ready for use.

CONSTABLES.

Mr. Edward Taylor has been sworn in, and a Mr. McIntosh, it is expected, will be sworn in to-day. We learn that one or two more are likely to be appointed soon.

Hon. F. J. Barnard is visiting Yale. His numerous friends and constituents are pleased to find that his duties at Ottawa have not impaired his health, nor, it is hoped, interrupted his general business career.

Other signs of preparation are visible at the east end. Mr. James Stott having sold out his extensive blacksmith shop to Messrs. Onderdonk & Co. purposes building again upon Douglas street.

Coming towards the west end, we find Mr. F. Crotty's new building occupied as a first-class boarding house by Mrs. Proutt. Mr. Henderson's residence is ready for the windows, and is receiving its first coat of white paint. Mr. R. Pickett has Mr. Onderdonk's comfortable new residence under roof; location near the Alway Creek. The brickyard building will soon be finished.

A couple of experienced workmen are opening a brickyard at the Bailey ranch west end of the town. The clay is stated to be of the best quality and soon Yale brick will be on sale.

The water of Yale Creek should be utilized for fire engine purposes.

The Emory Mill is kept back by the non-arrival of part of the machinery from Victoria, notwithstanding Messrs. Gray & Hoy have received by post the invoice. This delay is causing vexation and loss to the gentlemen named, and prevents building operations there.

Aquatic.

The New York *Clipper* of May 1st contains an illustration of Daniel H. Leahy, the San Francisco oarsman, between whom and Wm. Cotsford of this city a sculling match has for some time past been pending. Leahy was born in Ireland in 1852 and went to the United States when a mere boy. His first appearance in aquatic circles was as a member of the Pioneer Rowing Club of San Francisco. On May 18th, 1879, he pulled his first single-scull match, defeating John Sullivan over a two-mile course with the greatest of ease in 15m. 30s. On July 20th of the same year he rowed his first professional race with Stevens of the Alert Club of Vallejo, for a purse of $1000 over a three-mile course, and won very easily in 25m. 15s. The water was very rough and Leahy had to stop twice to bail out his boat. Seven days later he beat Edward Nelson over the same course by nearly a quarter of a mile, carrying off $1000 and the championship of the Pacific coast. Next he vanquished Hy. Hoyt over a five-mile course in 34m 30s. His honesty and pluck are stated to be beyond question. He stands 5 ft. 10 in. high, weighs without shoes and in condition 164lb, is 39 in. around the chest, and is well muscled. He has recently been appointed a member of the San Francisco police but will probably resign in order to permit of his fulfilling aquatic engagements. The *Clipper* says he can be backed to row any man in the United States in a four-mile race for $2000, allowing expenses to have the contest take place in Californian waters.

County Court.

[Before Hon. A. F. Pemberton.]

TUESDAY, June 16.

Noble vs. Heal—Argument in this case occupied the attention of the Court for several hours. The plaintiff sues the defendant for the value of certain goods which the plaintiff alleges he bought at an insolvent's sale on account of the plaintiff.

His Honor reserved judgment for a week.

Mr. McCreight, Q.C., for the plaintiff, and Mr. Robertson, Q.C., for the defendant.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, June 12.

Rudolph Salmon, brought up on a second charge of supplying intoxicating liquor to Indians, was again convicted, but on the application of Mr. H. C. Courtney, his counsel, sentence was deferred for one day.

The hearing of the case of W. Hamilton, charged with a similar offense, was further postponed until to-morrow (Wednesday).

FROM NEW WESTMINSTER.—The steamer Enterprise arrived here at 10 o'clock yesterday morning from New Westminster with a lower mainland mail, a quantity of miscellaneous freight and some 25 passengers. She also brought down 20 head of beef cattle, which she landed at Cadboro Bay wharf for Messrs. Vanvolkenburg & Co., and 25 head, which were landed at the H. B. Co.'s wharf, for Messrs. Goodacre & Dooley.

FOR SAN FRANCISCO.—The steamship Empire, Capt. McAllep, will sail from the outer harbor for San Francisco at noon to-day. She will have on board about a dozen passengers, who will be conveyed alongside from Welch, Rithet & Co.'s wharf by the steamer Woodside. She will also carry a special mail and letter express, which will close at 9 o'clock.

POWER DRILL.—Mr. Bugbee, who arrived down from Yale yesterday, will leave for San Francisco to-day per steamship Empire, to bring up engines for power drilling the rocks on the Yale-Savona railway. For short tunnels steam will be used; and for long tunnels compressed air will be employed.

THE Right Rev. Bishop Sillitoe, Bishop of New Westminster, and Mrs. Sillitoe arrived by the Idaho, and were the guests of the Lord Bishop of Columbia yesterday. We understand that Bishop Sillitoe will proceed to New Westminster this morning.

FROM PORTLAND.—The steamer Alex. Duncan arrived here from Portland at 3 o'clock yesterday morning with 80 tons of freight, consisting principally of flour. At 5 p. m. she left for Nanaimo.

Railway Progress.

Both above and below Yale the work is being pushed ahead with activity. The great effort at present appears to be to make the grade ready for the ties and rails between the magazine landing, one and a half miles west of Yale, and the tunnel work east of the town, in order to be able to use the track to forward the powder and other supplies as quietly, cheaply and safely as possible. The skirting of the hills is being cut away, the dump being used to fill the ravines (for it would seem that wherever there is a hill there the hollow is to receive the surplus,) and stumps are being removed. Thus the work progresses, and certainly the work looks business-like. At this grade-work the Chinamen are freely used, while the greater part of the white force is engaged in the timber work, preparing for bridges, tunnel work, etc. The force now working is over 700 all told, and increasing by every boat. The same as on all public works, there are men coming and going, for man's labor is his capital, and frequently changes his base of operations, seeking to better his condition in life. We cannot say that the tunnel work has made the advancement that we would like to have seen, although a good force is employed. Every precaution is taken against the repetition of such an accident as caused the death of poor Flynn at the east end of No. 1 tunnel. By another month the whole railway work will be in full railway force, when the additional plant and the force is doubled, as we understand it is the intention to do as soon as possible.—*Inland Sentinel.*

THE steamer Cariboo-Fly left at 7 a.m. yesterday for Nanaimo and way ports with the mails and the following passengers: Mrs. Bennett, Miss Richardson, Mrs. Grimes, G. Foord, S. Morgan, J. Fletcher, D. McDonald, A. McNaughton, Pollock, Tamblyn, J. Charley, Bennett.

THE steamer Princess Louise, after arriving at New Westminster yesterday morning with railway laborers, crossed over to Nanaimo to deliver cattle at that place and take on board a supply of coal. She will return to this port early this morning.

SOOKE.—The mortal remains of the late Peter Sangster, who was killed by the fall of a tree at Sooke on the 7th inst., were interred in the graveyard at that place on Wednesday last, the burial service being read by Mr. J. Muir.

FREIGHT FOR THE MAINLAND. — The steamer Enterprise to leave here at 5 o'clk this morning, will have on board 90 tons of freight for New Westminster and Yale.

THE season in the Island agricultural districts is unusually backward, crops and vegetation generally being from a month to six weeks "behind time."

THE Idaho S.S. will sail at noon on the 21st inst. for San Francisco.

THE sale of Government property at Yale is postponed till the 29th June.

A HUMOROUS MAYOR.

Enforcing the Sunday Law in Louisville.

[Louisville Letter, April 26th.]

This city is blessed with a mayor who not only knows how to organize conventions and manipulate legislatures but who knows how to make grim jokes. The legislature recently enacted a very stringent Sunday law, which forbids the doing of any kind of work for hire or profit from the midnight of Saturday until the midnight of Sunday. The mayor was opposed to this law and exerted his influence against it. The *Courier-Journal* and one or two others of the papers advocated the bill, and nearly all the preachers in town prayed for its passage. It was passed, and yesterday it was enforced for the first time. The mayor was seized with a virtuous desire to do his duty and enforce the law to the letter, although he is not noted for his pious daily walk. He notified all tradesmen and saloon keepers, ice-men, and draymen, that they would be arrested and indicted if they attempted to pursue their usual vocations during yesterday. He also said editors and compositors should not work and that newsboys should not sell papers. A little past midnight of Saturday policemen were sent to all the newspaper offices, and the names of all persons at work were taken for presentation to the grand jury. He did not fully carry out his threat, it will be seen, in regard to the newspapers, but he had his joke nevertheless in a totally unexpected way. When the last church bell had stopped ringing a policeman entered each church and took the names of all those paid for assisting in the services. This, as a rule, only embraced the organists and sextons of the several churches. But the action created excitement and not a little indignation. The cabs and hacks were all sent from the streets, and in several instances the private carriages of gentlemen were stopped in the streets and the drivers' names taken for presentation to the grand jury. The most serious annoyance felt was occasioned by the delivery of milk over night. There was a thunder storm Saturday night, and the milk for Sunday's use was all soured.

MESSRS. BAGNALL & CO. have made an extensive addition to their music establishment in order to make room for a large importation of Pianos, Organs, Violins and other Musical Instruments. This well-known emporium will now be replete with all that can be desired in the musical line. Grand, Square and Upright Pianos from London, Paris, Dresden and New York (about thirty to select from.) Morning Dispatch.

ENGLAND.

LONDON, June 12.—The failures are declared in the stock exchange to-day of Charles J. Church, broker in the English railway market; Edward Smith, jr., jobber, with large accounts in English securities and some American securities. Smith drew checks yesterday on the Bank of England amounting to £175,000, to meet his accounts. The checks were passed through the clearing house and presented in bulk, when the bank finding that the total amount exceeded Smith's deposits by some thousands of pounds refused to pay them and all were returned. As these checks had been drawn for the purpose of settlement by those who deposited them great confusion resulted in the banks and among the brokers, and there is loud complaint against the Bank of England for not satisfying the checks to the extent of Smith's deposit.

NEVADA.

LEADVILLE, June 14.—The city is under martial law, declared by Governor Pitkin. All places of business were closed on Saturday and drilling of the citizens' forces is active. Cavalry and infantry, 1000 strong, charged up and down the streets several times, but could not keep them clear. The mob offered no resistance, but talked loudly. Yesterday Governor Pitkin issued a proclamation demanding that all persons interfering with the working of the mines desist. It is supposed that martial law was declared because the mayor and council are in sympathy with the striking miners. The move was made to take the direction of affairs out of their hands. The feeling is intense and trouble may begin at any moment.

Governor Pitkin telegraphs from Leadville to day that the miners are going to work and that everything is quiet.

EASTERN STATES.

NEW YORK, June 14.—Thirty-six of the thirty eight States have chosen delegates to the Cincinnati convention. As none of these delegates are instructed for any candidate it is impossible to make a calculation of the strength of the various aspirants which will be more than approximately accurate. Enough is known of the preferences of delegates, however, to make it apparent that the convention will be strongly against the nomination of Tilden.

CALIFORNIA.

SAN FRANCISCO, June 14.—Lazarus Cohn, brother-in-law of M. H. De Young, recently deputy in the sheriff's office, shot himself through the head on Belden place in the rear of the *Chronicle* office about noon to-day. He is still alive, but his wound is fatal. Cause unknown.

Afternoon Dispatch.

ENGLAND.

LONDON, June 12.—Horseby, Palmer, Sterling & Co., East India merchants, have failed with liabilities £70,000.

LONDON, June 12.—The *Times* in its financial article says: "It is said that a private telegram reached this city yesterday announcing an arrangement between the opposing parties in Buenos Ayres. The belief gains ground that the federal government is too strong to be shaken just now by insurgent bands.

QUEENSTOWN, June 13.—The American team of riflemen arrived to-day per steamship City of Brussels. They were cordially received by a deputation from Dublin, including Mayor Leech. The team on reaching Dublin will practice at least three days in the week.

IRELAND.

DUBLIN, June 13.—The practice of the Irish rifle team on Saturday was indifferent, but the weather was stormy. Betting on the Americans is going up.

DUBLIN, June 14.—The Mansion House committee now have £16,000 on hand.

SPAIN.

MADRID, June 12.—A stormy debate occurred in the senate to-day on a motion of confidence in the government. Gen. Campos vehemently denounced the policy of the ministry, whereupon Premier Canovas del Castillo protested against the threatening language of Gen. Campos.

MADRID, June 14.—In congress to-day the minister of foreign affairs stated that England was ready to negotiate a treaty of commerce with Spain.

In a vote yesterday on a motion of confidence in the government all shades of the opposition abstained.

GERMANY.

BERLIN, June 13.—The emperor of Germany leaves on the 17th inst. He will visit the Dusseldorf industrial and arts exhibition on the 19th.

BERLIN, June 14.—Twelve thousand eight hundred and sixty-nine emigrants from Germany went to the United States during the first quarter of the current year.

AUSTRIA.

VIENNA, June 12.—A telegram from Salonica, Albania, reports that the Lloyd's agency there has been undermined and blown up. A director and an official were severely wounded. The building was partly destroyed. The originators of the outrage are unknown.

Midnight Dispatch.

CALIFORNIA.

SAN FRANCISCO, June 15.—Teresa Flanagan, widow of John Flanagan, who committed suicide some months ago, suicided yesterday afternoon by taking opium. She left a note which indicates that general despondency was the cause of the act.

Wm. Hutchinson, barber, in a fit of jealousy, last evening, stabbed his wife in the breast and head, inflicting dangerous wounds. He surrendered himself to the police.

COLORADO.

LEADVILLE, June 14.—The provost marshal this morning issued orders that liquor saloons and dance houses should close at 12 o'clock until further orders and remain closed; that the assembling of persons in any hall or other place for discussion of issues growing out of the present condition of affairs is unlawful, that other weapons except those born by militia or by permit from general headquarters is forbidden and that all persons except firemen or members of of military on duty will not be allowed on the streets after 10 o'clock p.m. To-day has been very quiet. It is generally thought that all the mines will soon be running with full force. All danger is, however, not over and contingencies may arrive which will cause more serious trouble. Clark, one of the editors of the strikers' organ called the *Crisis*, left Leadville last night for parts unknown.

PHILADELPHIA, June 14.—Warner & Merritt's fruit schooner, the Ella A. Merritt, plying between this port and San Antonio, was fired at on her homeward voyage while upon the high seas fifteen miles from Quanatameto, and fifteen miles from the shore, by the Spanish man-of-war Nuncio. The steamer fired at first a blank shot, to which Capt. Band showed his colors and before he hove to a second shot was fired, which struck the water and, glancing upward, passed through his rigging. The Ella A. Merritt lay to and a Spanish officer came aboard, looked around and went back over the side of the schooner, which was then allowed to continue her course.

MONTREAL, May 29.—Thos. F. Miller, a wealthy resident os this city, was *capiased* to-day for $48,681 due Madame Annie Marie Coleman, as executor of her husband's estate. It is claimed that Miller was secreting his goods and was about to leave the city to evade the payment of a judgment for the amount of the claim.

GUELPH, May 25.—Messrs. Wm. Bell & Co., of this city, have received a letter from Mr. Wm. Flemming, Canadian manufacturers' agent in Australia, informing them that their organ has been awarded the only special prize gold medal, at the Sydney exhibition, beating English and American organs.

QUEBEC, May 30.—At the Opposition caucus yesterday the resignation of Mr. Joly was the chief topic discussed, and it was decided not to accept it.

MONTREAL, June 1.—The customs receipts of this port for the month of May last were $526,877.50, against $275,327.35 for corresponding month of 1879, showing an increase of over 90 per cent in favor of last month.

TORONTO, May 31.—The Bishop of New Westminster, B. C., occupied the pulpit at St. Paul's, London, Ont., yesterday.

It is positively stated that Mr. J. B. Robinson has been appointed Lieut.-Governer of Ontario and Mr. Angus Morrison Collector of Customs for the port of Toronto.

In May the customs receipts of Toronto amounted to $154,539.67. These figures show an increase for 1880 of $41,475.96. The inland revenue receipts for May were $44,774.92, being an increase over 1880 of $22,420.59.

ST. JOHN, N. B., May 29.—To night in the parish of Simonds, two miles from this place, an elderly man, named John Drury, shot and killed his brother Edward and also shot and seriously wounded his brother Ward Chipman Drury. This occurred in the house. He went and set fire to the outhouses, and finished by blowing out his brains. When some people were attracted to the place by the fire the two men were dead, while Chipman Drury was able to move about. He is now under medical care and will likely recover. The house and barns, worth $10,000 or $12,000, were burned down. Nothing could be done to save them as there was no water in the vicinity. The tragedy has created a profound sensation. It is impossible as yet, owing to the excitement that prevails at the scene of the awful affair, to obtain full particulars. John Drury, the murderer and suicide, was a deaf and dumb man of 60 years. Edward was older. Various causes are assigned for the crime. It is said that John has been drinking lately, and has been carrying a revolver about him for several weeks: that some dispute about property took place that led to the crime. The Drurys moved in the highest social circles, and are connected with the leading families in the Province. Chipman Drury, who so narrowly escaped death, is Registrar of Deeds for the County of St. John. One source of wonder is that the murderer did not see any of the women and children in his mad fit.

ST. JOHN, N.B., May 30.—It is now quite clear that John Drury committed the crime for some fancied wrongs concerning family property. His elder brother (Charles) died a few months ago, and left all his property to the youngest brother, Ward Chipman Drury, with the proviso that he should look after John, who was deaf and dumb, and Edward, who was deaf John was highly incensed because he was not left the property, and he had been sullen and disagreeable since Charles' death. It is thought he had been meditating the crime during the last week, for he spent the last two days, it is said, in writing a letter to his sister, the wife of Chief Justice Alton, which letter is expected to give a clue to the origin of the trouble. John was about the house as usual yesterday, and no change in his manner was noticeable. About 8:30 o'clock in the evening, he, evidently in accordance with a well-arranged plan, set fire to an outhouse. As soon as the fire was under headway he entered the house, where he found Ward Chipman sleeping in an armchair, with his children around him. He fired at Ward and struck him in the right side. He then rushed upstairs to his own room and set fire to the curtains. His brother Edward, seeing the fire, and knowing nothing of the occurrence, rushed up with a pail of water. John motioned him to leave, which he did, but so soon as his back was turned, John fired at him, the bullet entering the back of his head and killing him instantly. The murderer then rushed into Miss Drury's room, and placing the revolver to his right temple drove a bullet into his brain.

An Illinois woman went into the show business on a small scale with a bogus petrified baby, which she wheeled from town to town in a perambulator, telling a story of its sickness, death and final transformation into stone. Dr. Hammond, of Minneapolis, was engaged to marry Miss Bly, but he made Miss Winter his wife instead. Nobody could guess why he changed his matrimonial plan, and the mystery was deepened by the fact that Miss Bly had nothing hard to say against him. The matter is clear now, for he has eloped with her after getting possession of his wife's $15,000.

John Conrad, a well-to-do farmer, of Washington, Wis., a week ago returned home intoxicated, beat his mute, bed-ridden, crippled son aged 25, and threw him down stairs, breaking his neck. German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection, and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Beware of medicines of similar names, lately introduced. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Sample bottle, 10 cents. *

I Shall Never Travel Without Them.

BROCKVILLE, Canada, Sept. 25th 1879.

Messrs. H. H. Warner & Co., Rochester, N. Y.—Gents:—While travelling through the State of Texas during the past season, I contracted malarial difficulties that I had almost despaired of ever recovering from, and during the five months of my stay there was frequently prostrated and utterly unable to attend to any business; but through the recommendation of a friend living in your city I tried, as an experiment, your Safe Pills and Bitters, and am only too happy to testify to the beneficial success derived therefrom. I experienced a marked improvement very soon, and in a very short time complete recovery. An occasional dose of the Pills with a regular use of the Bitters kept me in splendid condition during the remainder of my stay. I shall never travel in Texas or the West without your Safe Pills and Bitters as a part of my outfit. If the remedies are not on sale here please send me three bottles of Bitters and half dozen boxes of the Pills, or tell me where they can be obtained in Texas, or the West, as I am about to return there. Yours, very truly,

PROPOSED LOAN FOR WATER WORKS PURPOSES.

THE MAYOR AND COUNCIL BEG to place before the Ratepayers the scheme of the Water Works Engineer for putting the City Water Works in a complete condition.

To carry out the work a loan of $70,000 is necessary, and the following particulars place the matter as clearly as possible before the Ratepayers for their judgment thereon. Should the loan be effected and the work carried out the increase in water rents resulting therefrom will be about 20 per cent. This increase within two years will be ample to meet the amount annually required for interest and sinking fund of the loan. The Water Works at present are heavily indebted to the City for amounts taken from general revenue for reconstruction of the head works. This expenditure was necessary in order to continue the present supply of water and to prevent the entire destruction of the previously constructed works at Beaver Lake. The said expenditure has absorbed nearly the whole of the surplus revenue of the City for the current year, and should it not be repaid by means of a loan further works on streets will be impossible without increased taxation. The loan of $70,000 is intended to carry out the scheme of the Water Works Engineer and to repay to the general revenue for public works the amount already expended at the dam and elsewhere, which is nearly $15,000.

The Ratepayers are referred to the Engineer's report published in *The Colonist* on March 28th and to the following scheme.

CITY HALL, 22nd March, 1880.

To His Worship the Mayor and Municipal Council.

GENTLEMEN,—In compliance with the resolutions requesting me to draught a scheme for the extension of mains and a better supply of water for the high levels of the City, I have the honor to report that after taking into consideration the probable large increase of population, and to guard against the necessity of being compelled to enlarge the main conduit pipe for many years,

I would suggest that it will be necessary to adopt the principle of a high and low service reservoir as I find that the high service reservoir to be effective must be constructed at an elevation above the level of the water in Elk Lake, and in order to obtain the delivery of the greatest quantity of water in the City and to effectively supply the high levels I would suggest that the 11 inch main be extended from Douglas street along Pandora street, say to the neighborhood of the Royal Hospital, as that would give an elevation of 135 feet above high water mark sufficiently high to supply all the thickly populated parts of the City.

A reservoir built at the point suggested would have the following advantages: The level of the water in the reservoir would be 58 feet below the level of the water in Elk Lake, and 48 feet will be available for the delivery of water from the above source which will give a theoretical delivery of 37,000 gallons per hour; running continually will give a supply sufficient for a population of 30,000 inhabitants allowing 25 gallons per head per day and by discharging 37,000 gallons per hour 10 feet above the level of the water in Reservoir and by causing it to pass through a hydraulic engine it will develop sufficient power to raise 3,000 gallons per hour through a 6 inch pipe into the high service reservoir which may be built on the high rock at the top of Fort street, at an elevation of 200 feet above high water mark, or 8 feet above the level of the water in Elk Lake, and that quantity would be sufficient for a population of 3,000 inhabitants. It is intended that there will be no connection between the service pipes of high and low service reservoirs except in case of fire. As to size of reservoirs required, I would suggest that the low service reservoir be built to hold 1,500,000 gallons, or, say, 140 feet square and 12 feet deep, and the high service one to hold 60,000 gallons, or, say, 30 feet square and 12 feet deep; and while selecting the best plan for the construction of said reservoirs I may add that in all well regulated cities it is an established principle that in building reservoirs to contain water for domestic use they should be built so as to be able to contain the greatest quantity of water in the smallest possible area and covered so as to exclude the light, as light is very injurious to water stored in a reservoir and intended for domestic use; and to carry out that principle I propose to build the reservoirs by blasting out 4 feet of the rock and using the rock provided by that means for building the balance of the wall, which would be 8 feet high, and that will make the reservoir 12 feet deep, the roof to be supported by cast iron columns. The cost of carrying out and completing the above scheme will not exceed $50,000, to which must be added $10,000 which will be required to complete the filter beds; but should you see fit to adopt the proposed scheme I am prepared to furnish you detailed plans and specifications for the same.

In conclusion I may add that I am aware that it is generally accepted as a fact that there is a natural reservoir at the head of Fort street and that there is nothing to do but to turn the water into it; but I find that to attempt to carry the water to one common reservoir that would partially supply the high levels the difference between the level of the water in reservoir and. evel of water in Elk Lake is so small, being only 25 feet, the difference in the quantity of water delivered in the city by comparison would be to one common reservoir at the high level, *but not sufficiently high to be effective for all the buildings*, and from a head of 25 feet the main conduit pipe will deliver 23,000 gallons per hour, and by the proposed scheme from a head of 48 feet the main conduit pipe will deliver 37.000 per hour, 3,000 o which will be effective for the highes buildings on the high levels, while the r would also be a saving in pipe as well a a more effective pressure on the city main in case of fire. I am aware that Gold stream has still some advocates who believe that the supply should have been obtained from that source; but without stopping to discuss that point I may say that, from whatever source the supply is obtained, the proposed scheme is equally required by all.

Respectfully submitted.

(Signed) ALEX. HENDRY,
Supt. and Engineer.

A BYLAW

To enable the Corporation of the City of Victoria to raise the sum of ($70,000) Seventy Thousand Dollars for the purposes therein set forth.

WHEREAS THE MUNICIPAL COUNcil of the Corporation of the City of Victoria has resolved to raise the sum of Seventy Thousand Dollars to pay off certain debts due in respect of the Water Works of the said City and to extend the said Water Works system into the suburbs of the said City.

And whereas it will require the sum of Six Thousand Three Hundred and Forty Dollars to be raised annually by special rate for the payment of the said debt and interest, as is hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Corporation of the City of Victoria according to the last revised Assessment Roll being for the year 1879 was $2,655,820, irrespective of any future increase of the rateable property of the Municipality and of any income in the nature of tolls, interest or dividends from the work, and also irrespective of any income from the temporary investments of the sinking fund or of any part thereof.

And whereas for paying the interest and creating a yearly sinking fund for paying the said principal of $70,000 and interest as hereinafter mentioned, it will require an equal annual special rate of one-fourth of one per cent. on the dollar.

BE IT THEREFORE ENACTED by the Mayor and Council of the Corporation of the City of Victoria:

1. That it shall be lawful for the Mayor of the City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $70,000, and cause the same to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object above recited.

2. That it shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required not less than $100 each, and that the said debentures shall be sealed with the seal of the said Corporation of the City of Victoria and be signed by the said Mayor.

3. That the said debentures shall be made payable in twenty-five years at the farthest from the day hereinafter mentioned for this Bylaw to take effect at the office of the Treasurer of the Corporation of the said City of Victoria, and shall have attached to them coupons for the payment of the interest.

4. That the said debentures shall bear interest at and after the rate of Seven per cent. per annum from the date thereof, which interest shall be payable half-yearly at the office of the Treasurer of the Municipality.

5. That for the purpose of forming a sinking fund for the payment of the said debentures and the interest at the rate aforesaid to become due thereon, an equal special rate of one-fourth of one per cent. on the dollar shall, in addition to all other rates, be raised, levied and collected in each year upon all rateable property in the said Municipality during the continuance of the said debentures or any of them.

6. Clause two of the "Victoria Reveeue Bylaw, 1875," as amended by the "Water Works Debenture and Revenue Bylaw Amendment Bylaw, 1877," and further amended by "The Bylaw to Authorize the Raising of Twenty Thousand Dollars, 1878," is hereby further amended by striking out the words "eight-tenths" and substituting the words "eleven-twentieths."

7. It shall be lawful for the said Municipal Council from time to time to purchase any of the said debentures, and such debentures shall be so expressed as to entitle the said Council to redeem and purchase the same on paying the amount thereof and interest due thereon to the date of such purchase to the holders thereof, and all debentures so repurchased shall be forthwith cancelled and destroyed, and no re-issue of debentures shall be made in consequence of such repurchase.

8. That this Bylaw shall take effect and come into operation upon the 1st day of July, A. D. 1880.

9. This Bylaw may be cited for all purposes as "The Bylaw to Authorize the Raising of Seventy Thousand Dollars, 1880."

Passed the Municipal Council this Ninth day of June, A. D. 1880.

DR. J. COLLIS BROWNE'S

(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE.

The Lancet, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.

DR. SPINNEY & CO'S DISPENSARY,

No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time so

COME AND BE HEALED!

It matters not what you troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

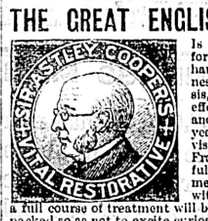

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00
